**Mehmet AKAT**  
Turkish Cosmetics Promotion  
Group Chairman

« HELLO »

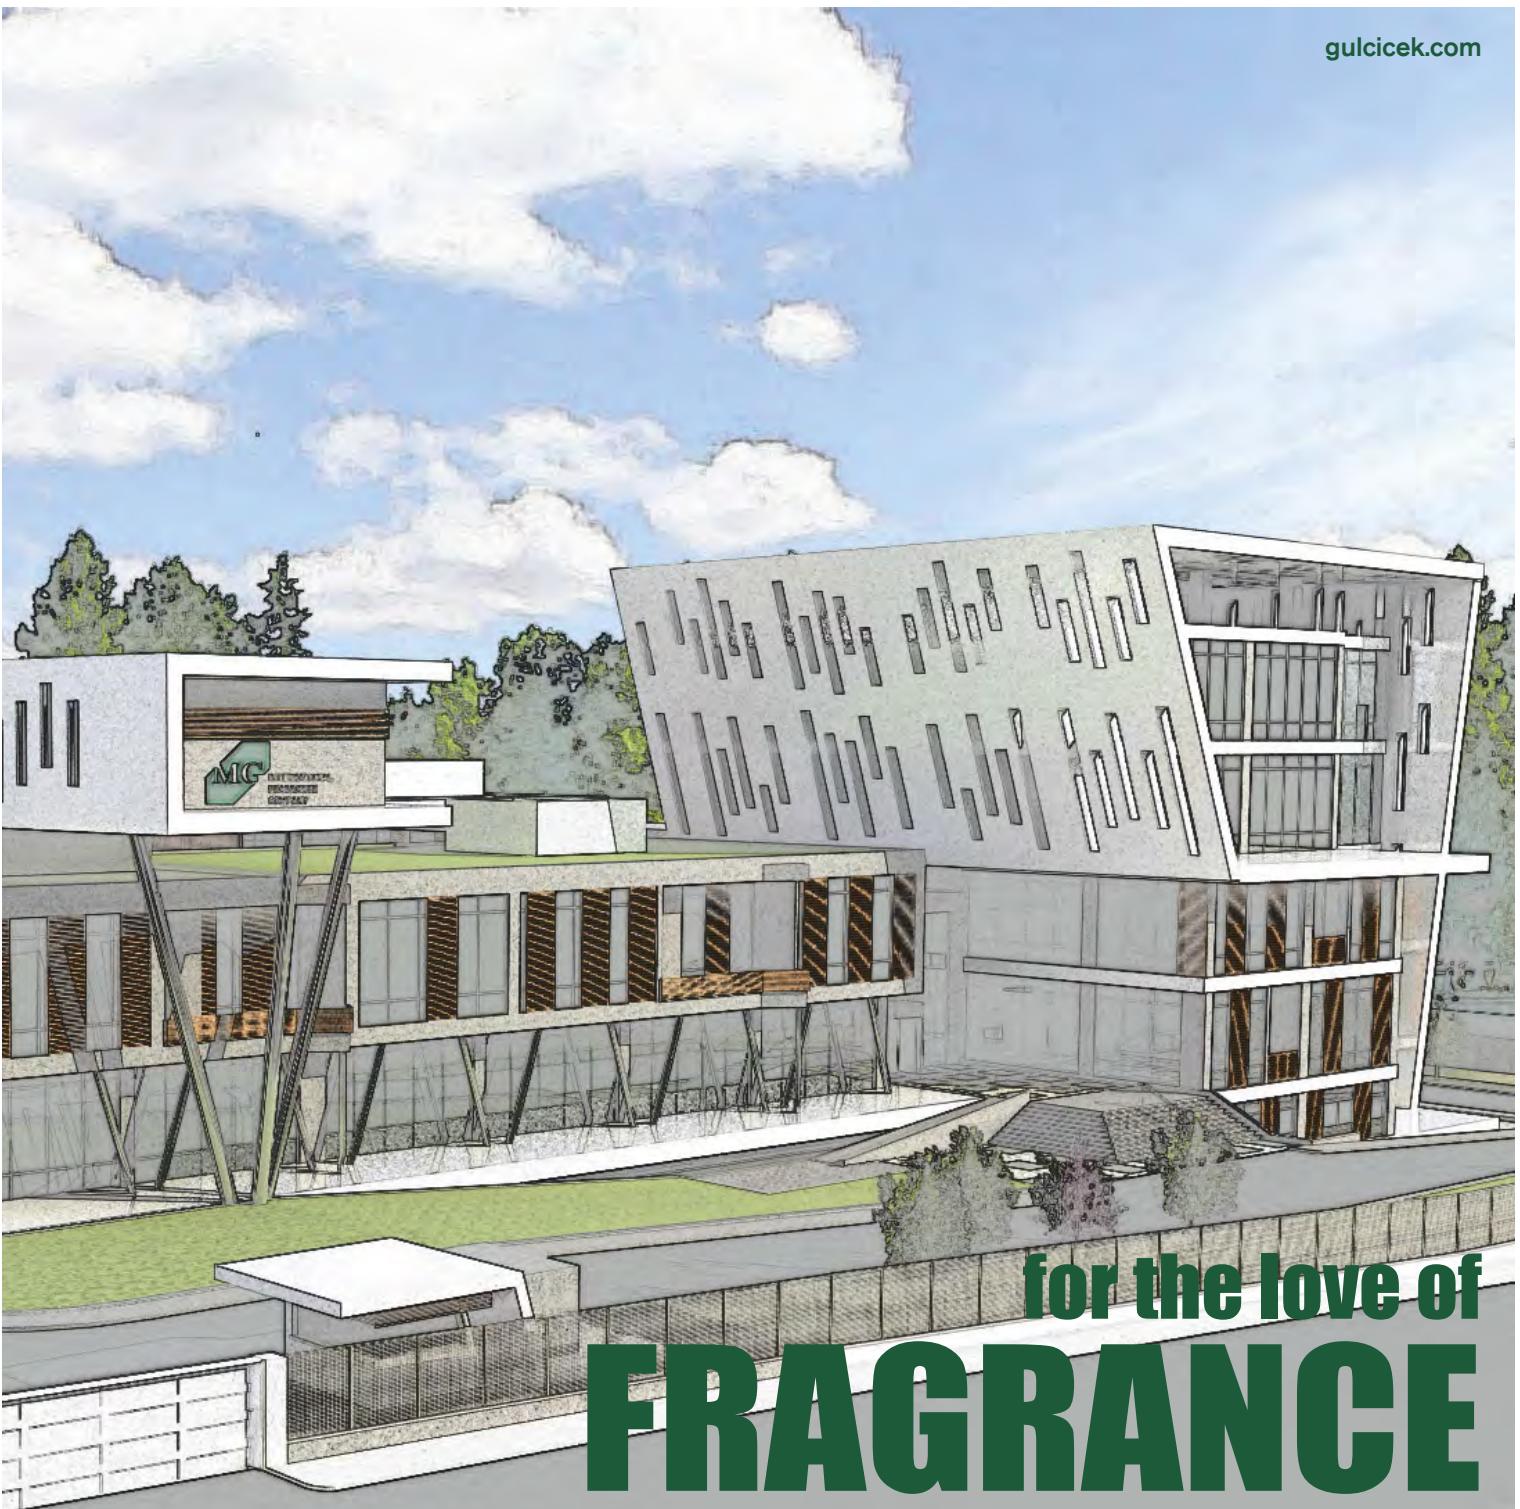

Having gained more momentum following a busy 2015, as the Turkish Cosmetic Promotions Group we are ready to move forward. With only a few days left to the end of the year, we want to focus on new beginnings, not endings. We are eager to discover the new -what has never been used before- and in fact to define it when the time comes.

As we continue to take strides in reinforcing the Turkish Cosmetics Sector's recognition across the globe and beyond the present, we are also continuing to grow by adding recently identified developments to our organisation. Instead of labeling the previous years as old, we would rather measure it as all the experiences that have brought us to where we are today. Of course, while doing so we are taking the future into account, not the past.

Since we are on the subject, let's shortly tell you what else we are up to in 2016: we will be visiting Tokyo, Dusseldorf, Bologna, Tehran, Dubai, Kuala Lumpur, Las Vegas, Kiev, Moscow, Belgrade and Hong Kong in that order. Also in the same order, we will be participating to Cosmo Tokyo, Beauty Dusseldorf, Cosmoprof Bologna, Iran Beauty & Clean, Beautyworld ME, Cosmobeauté Asia, Cosmoprof North America Las Vegas, Intercharm Ukraine, Intercharm, The Touches of Paris and Cosmoprof.

As for our magazine, in 2016, you will be coming across hints of innovation. In a nutshell, from the moment you begin to turn the page you will witness what the future holds for us. Before you dive into the contents of our magazine, we want to stick to tradition and wish you a happy new year.

## HALE MÜNÜKLÜ SAVING THE PLANET

TODAY'S ENVIRONMENTAL POLLUTION IS NOT LIMITED TO A FEW DIFFERENT GEOGRAPHIC LOCATIONS, BUT IS A PROBLEM FELT AND SEEN EVERYWHERE ACROSS THE WORLD. EKOKIMYA HAS TAKEN GREAT STEPS IN THIS AREA, SO IT WAS TIME WE HAD AN ECO-FRIENDLY CHAT WITH CO-FOUNDER HALE MÜNÜKLÜ.

questions seda çamcioğlu photography volkan aydin

**"ECOLOGICAL AND BIODEGRADABLE PRODUCTS HAVE MORE EXPENSIVE INGREDIENTS IN THEM COMPARED TO NORMAL DETERGENTS."**

**Ekokimya was established in 2009, a time when organic cleaning products were not yet common in Turkey. Was this a risky adventure for you?**

Yes, in 2009 ecological, organic cleaning and cosmetic products was a new market and there wasn't any demand, just a few companies providing quality products in this area. We knew it was going to be a difficult journey, but we embarked on it anyways. In a very short time we presented very impressive products. In the first two years we had manufactured Turkey's first ecological dishwashing gel, this of course added to our confidence and excited us. As a result, our product range began to grow. Products that don't harm people or the environment! What could be better?

**When we hear words like biodegradable cleaning and cosmetic products what do we really need to understand?**

Biodegradable cleaning products dissolve in a short amount of time in nature, disintegrate and are cleaning ingredients that can return to the environment in the recycling cycle.

**What types of products are within Ekokimya?**

Currently, we manufacture over 80 products and some of these we manufacture specially for brands and some are produced by us for brands we have created for customers. We can categorize them as organic face care products, organic baby care products, body care, hair care, domestic cleaning products, washing and dishwasher groups.

Right now we have three registered trademarks: one of these is Ecos3, our ecological cleaning product brand, the other is Ecowell, our organically certified personal care and cosmetic brands. The last one is Swissoderm, our herbal personal care and cosmetic product brand.

**Cleaning products such as detergent and dishwashing gel are the least interesting in the natural product line but provide the greatest benefits. So, do you believe it's important to remind over and over again that synthetic detergents have negative aspects?**

Definitely. The normal, conventional detergents we use contain severe chemicals that harm people and the nature. These dangerous chemicals (formaldehyde, preservatives like parabens, phosphates, hypo content bleach and many more like this) unfortunately, negatively effect human health and the environment. For example, detergents that we use frequently in the washing machine and dishwasher has high levels of phosphate and other phosphonate types seriously pollute the water and lead to the extinction of fish species over and over again. Also, hypo content washing detergent, bleach, high oil

chemical solvents, high acid content bath and toilet cleaning products used regularly will eventually lead to skin damage and have a negative impact on skin if used for a long time.

**So then why don't other manufacturers follow your path with what you've succeeded in ecological and biodegradable cleaning products?**

This is a subject that needs to be discussed from different perspectives, but if I were to say in short, I'd say cost! Ecological and biodegradable products have more expensive ingredients in them compared to normal detergents. Furthermore, some ecological production processes bring extra costs. However, there is a rapidly increasing interest in natural, ecological and organic products across the world so other large manufacturers will begin to respond to this demand. This isn't an easy process but as customer demand moves in this direction, so will supply.

**What do you think is the most harmful cleaning product that needs the most attention when using it?**

Definitely bleach! Even inhaling it is dangerous. Bleach is a hypo content product used the most in our country and is a product to be used with extreme care. Contact with skin or swallowing by mistake can lead to serious consequences. Turkish women are extremely meticulous in their cleaning, but they need to inform them-

### DÜNYAYI KURTARMAK

**TR Ekokimya, Türkiye'de organik temizlik malzemelerinin henüz yaygın olmadığı bir tarihte, 2009'da kurulmuş. Sizin için riskli bir macera mıydı?**

Evet, 2009'da ekolojik, organik temizlik ve kozmetik malzemeleri, ülkemiz için çok yeni bir pazardı, yoğun talep yoktu, bu alanda kaliteli üretim yapan çok az firma vardı. Zorlu bir macera olduğunu biliyorduk ama yine de atıldıktı. Çok kısa sürede, çok etkili ürünler ortaya çıktıktı. İlk iki sene içinde Türkiye'nin ilk ekolojik bulaşık makinesi jelini geliştirdik. Bununla birlikte

kendimize güvenimiz ve haliyle heyecanımız da arttı. Sonuç olarak ürün çeşitliliğimiz de artmaya başladı. İnsana ve doğaya zarar vermeyen ürünler! Daha iyi ne olabilir ki.

**Ekokimya'nın bünyesinde genel olarak ne tarz ürünler bulunuyor?**

Şu anda 80'ün üzerinde ürün üretiyoruz, bunların bazları marka sahiplerine özel olarak tasarladığımız ürünler, bazıları da kendi yaratlığımız markalarımızın bünyesinde tüketiciyle buluşuyor. Organik yüz bakım ürünleri, organik bebek bakım ürünleri, vücut bakımı, saç

ve doğadaki döngüye geri katılabilen temizlik malzemeleridir.

**Ekolojik ve biyoçözünür temizlik ürünleri üretilerek neden tüm sentetik üreticiler bu yöne kaymıyor? Bu konuda ne düşünüyorsunuz?**

Bu farklı yolların ele alınması gereken oldukça uzun bir tartışma konusu ancak özellikle sunu söyleyebilirim ki öncelikle maliyet! Ekolojik ve biyoçözünür temizlik ürünleri normal deterjanlara göre içerikleri daha pahalı ürünlerdir. Ayrıca bazı ürünlerde ekolojik üretim

**"TURKISH WOMEN  
ARE EXTREMELY  
METICULOUS IN  
THEIR CLEANING,  
BUT THEY NEED  
TO INFORM  
THEMSELVES  
HOW THEY ARE  
DAMAGING THEIR  
FAMILIES AND THE  
ENVIRONMENT."**

selves how they are damaging their families and the environment. Women don't really think about why their skin is so dry or irritated. Sometimes the reason is simple since their hands are always in contact with detergents that contain high levels of chemical ingredients. For example, in conventional dishwashing detergents, salt is used to increase the consistency. In order to bring it to a desired balsamic consistency, a lot of salt is added which harms the hands. In order to completely purify all the phosphate, bleach and other similar chemical ingredients in detergents for dishwashing and washing, it would take 6-8 tons of water, which in practice is impossible. Therefore, chemicals that are not purified in dishwashing and washing machines come into contact with skin or our mouths accumulate and may be open to undesired results.

**So, what is the main content in your products?**

Our products have different contents depending on their function. Herbal content materials, citric acid, natural acids, aloe vera extract, organically certified essential oils and organic herb juice are some of them.

**To what do you owe the naturalness of your formulas?**

We are constantly investigating the possibilities of raw materials. What are people using across the world, how can we purify our products even more, what do people need, which innovative products will offer a healthier and more comfortable life... We are searching for the answers to these questions. As we protect the environment, it provides us with more riches. We continue to work efficiently on economical, natural formulations under the standards of what has been set by internationally accredited and certified organizations.

**When it comes to finding alternative so-**

**lutions of raw materials your R&D projects must gaining importance. What kind of a path do you take?**

The heart of this is R&D. Until now, with Tübitak Teydep's support we have successfully completed two products: one is our multifunctional ecological dishwashing gel, Ecos, the other Ecos3, is a concentrated washing machine detergent. Throughout the Tübitak projects we received consultancy from valued academics from universities. We have also received consultancy support for some of our projects from abroad.

**Where can we find your products in Turkey?**

Ecowell based products are found and Watsons and Temari, Lilakutu can be found at stores that sell organic products and Ecos3 cleaning products can be found at Zorlu Eataly, Üçler & Sarıyer markets, Temari and other stores that carry organic products.

süreleri de ek maliyetler getirir. Ancak tüm dünyada suları özellikle kullanımında çok dikkatli olunması gereklidir, ekolojik ve organik olana ilgi hızla artıyor ve zaten ürünler. Ciltle teması, yanışıklık yutulması çok ciddi sonuçlar doğurur. Türk kadınları temizlik konusunda çok titizler ancak malesef temizlik adına kendilerine, ailelerine ve çevrelerine verdikleri zarar konusunda bilgilendirmeleri gerekiyor. Kadınlar elleri kupkuru olduğunda, tıhri olduğunda neden olduğunu pek düşünmez. Genelde nedeni basitir, ellerinin sürekli ağır kimasalar içeren deterjanlarla hazırlıksız olması. Örneğin konvansiyonel bulaşık deterjanlarında birbirki ve istenmeyen sonuçlar doğabilir.

**En zararlı bulduğunuz ve kullanırken dikkat edilmesi gerekiğini düşündüğünüz temizlik ürünü hangisi?**

Kesintiksiz çamaşır suyu! Sulu olması dahi tehlikeli. Ülkemizde sık ve çokça tüketilen hypo içerikli çamaşır

kivamına getirmek için tuz yoğunluğu artırılır, bu da eleri mahveder. Fosfat, ağartıcı ve benzer ağır kimasalar içeren deterjanların bulaşıklardan ve çamaşırlarından tam olarak arınılmasına için tonlarca -6 ila 8 ton-su ile durulanması gerekiyor ki bu pratikte mümkün değil. Dolayısı ile bulaşık ve çamaşırlarından tam olarak arınmayan kimasalar ağız ve deri yoluya vücutumuzu birbirki ve istenmeyen sonuçlar doğabilir.

**Peki sizin ürünlerinizin temel içeriğini ne oluşturuyor?**

Ürünlerimizde işlevine göre farklı içerikler bulunuyor. Kavam artırıcı olarak tuz kullanılır. Arzu edilen balsam

belirlediği standartlar çerçevesinde etkili ve ekonomik projelerimizde yurtdışından da danışmanlık destekleri doğrudan formülasyon çalışmalarına devam ediyoruz.

**Söz konusu doğal hammaddelele alternatif çözümler sunmak olduğunda Ar-ge çalışmaları Ofis saatlerinizin binlerce farklı görevde biraz daha önem kazanıyor, değil mi?**

Bu işin kalbi Ar-ge. Şimdiye kadar Tübitak Teydeb destekli ve başarıyla sonuçlanmış iki ürünümüz var: Bir ekolojik çok işlevli Ecos3 bulaşık makinası jelmez, diğer de Ecos3 konstantre çamaşır makinesi deterjanımız. Sonrasında üretme bir göz atar, sırasıyla tüm departmanlara uyarır ve odama geterim. Çünkü odama girdikten sonra günlük tempom o kadar yoğun oluyor ki bireyin yemeye dahi fırsat bulamıyorum. Bu arada uluslararası akredite sertifikasyon kuruluşlarının

**So how are your products received abroad? Which countries do you see the highest demand from?**

Our products are very popular abroad. The product demands vary from country to country. We are seeing the most demands in our Asian markets and in Iraq. Our sales in Europe are growing slowly.

**What is Ekokimya's star product that sells the most?**

Ecowell liquid facial soap sells the most in our personal care group and in our cleaning group; Ecos3 Ecological Dishwasher Gel is the star product.

**How do you spend a day at the office? We can only assume that you are split between several different tasks at work...**

Yes. On a normal day, the first thing I do is go to the lab and chat with the R&D team. Afterwards,

I take a look at production; visit all the departments before heading to my office. Because the moment I enter my room, my hectic day begins and sometimes I am so busy that I don't even have the chance to eat. Also, since I spend such a large part of my year at fairs, international visits and seminars, most of the year I'm gone. Therefore, when I am in Istanbul it's quite busy.

**Is your skin care routine as hectic as your office life? What do you do for yourself?**

In all honesty, I don't like putting on makeup, but I make sure to stick to my skin care routine. I never forget to wash my face with Ecowell liquid facial soap every morning and night. If your face isn't cleaned properly, it is impossible to see the beneficial results of using these products. After washing my face routinely every morning and night, I apply a cream around my eyes and apply moisturizer. I apply masks 2 or 3 times a week. Another must in my routine is using the Ecowell

elixir oil at night after moisturizing.

**What sort of advice would you give someone who has never used ecological cleaning and personal care products?**

First, learn all the important names of dangerous chemicals that harm humans and the environment. Take a look at the ingredients of the products you've bought or planning to buy. Know what you are putting on your face and what you are washing that glass of water with. I would recommend those choosing organic products in personal care to especially choose to use certified products. These independent accredited foundations regularly check the content, production and even packaging of organic or naturally certified products. As I've previously mentioned, it's extremely important to remember what I've stated for cleaning products as well and to stay away from those that contain these dangerous chemicals.¶

iprojelerimizde yurtdışından da danışmanlık destekleri doğrudan formülasyon çalışmalarına devam ediyoruz.

**Siz bir iş gününüze nasıl geçiriyorsunuz? Ofis saatlerinizin binlerce farklı görevde biraz daha önem kazanıyor, değil mi?**

Evet. Rutin bir günde şirkete girer girmez ilk işim lab-

fılar, yurtdışı temsilcilik ziyaretleri, seminerler derken yılın bir kısmını da yurtdışında geçirmek zorunda kalyorum. Dolayısı ile İstanbul'da olduğum zamanlar oldukça tempolu geçiyor.

**Daha önce temizlik ve bakım konusunda ekolojik ürünleri tercih etmemiş, bu konuda deneyimsiz birine ne gibi tavsiyelerde bulunurunuz?**

Öncelikle insan sağlığına ve doğaya zararlı kimyasalların en önemllerini isimlerini öğrenin. Ürünlerden mümkün olduğunda uzak durmalarını önerilebilir.¶

The history of Sora traces back to 1981 when the company started to manufacture the first aerosol filling machine in Turkey. Onwards from 2000, Sora Cosmetics shortly turned out in Turkey as well as abroad into one of the major players in cosmetics. Sora Cosmetics exports its outstanding exports to more than 70 countries worldwide located on 5 continents. Cosmetic shops, major retailers and leading cosmetic brands worldwide can be referred to as major clients of Sora.

In 2011, Sora purchased the company BEBAK together with brand and knowhow rights. BEBAK, a well-known brand in Turkey set up in 1933, is formed-up of skin care products derived from bitter almond extract such as skin care cream and make-up remover. This brand still leads the Turkish market in its own category and will shortly start world-wide marketing and sales as well.

Headlined under personal care products, Sora manufactures various skin care, baby care and personal hygiene items for men, women and kids. Household care items can be referred to as room sprays, furniture and car care, spray refills and dispensers. Leading brands of Sora are ECI, BEK, SECRET OF LADY, BEBAK, SORA CARE, GARDEN and COOL AIR. Apart from its own brands, Sora also manufactures for leading retailers and cosmetic companies under private label.

# THE NOBLE FRUIT

EXQUISITE GRAPES THAT HANG FROM VINES NOT ONLY APPEAL TO THE EYE, BUT ALSO RECREATE EVERY SINGLE BEAUTY AND HEALTH RITUAL FROM A TO Z.

words nilay yalçınkaya

mythja / iStock Turkey

## GRAPE SEED OIL IS KNOWN AS THE TRUE SOURCE OF VITAMIN E AND OMEGA 6 IN THE BEAUTY WORLD.

We have been discovering the delicious taste of grapes; its benefits to health and its elements in the creation of beauty ever since 5000 B.C. Grapevines are an important crop plant in Turkey and grapes especially, have a rooted history in the Anatolian region where they are grown and hold an indispensable place in our culture. It is estimated that there are over 15,000 variations of grape and a significant level of these are produced in our country which add a remarkable amount of benefits to health and beauty. The most important and valuable discovery of this noble fruit in the cosmetics industry has been the oil obtained from its seeds. You must unearth the healing powers of the colorful and watery grape seed before it's too late. Assumed to be native to Spain, grapes are hard-shelled fruits of vine plants. Thanks to a large number of grape vines found across our country, Turkey ranks 6th in worldwide grape production. While most vineyards are found in the Aegean region, the most fruitful of them once again come from the Aegean, Marmara and Medi-

terrenean regions. Grape production is widespread in Southeastern Anatolia and Eastern Anatolia: with the growth and production of Adakarasi, Boğazkeresi, Öküzgözü, Hamburg Misketi and many more grape varieties across our country, we hold an important place in the world market's food, health and cosmetics industries. We cannot go without telling you the miraculous effects of grape seed oil, just like we cannot go without telling you the benefits of grapes. Obtained from grape cultivars of "Vitis Vinifera," grape seed oil is sweet and aromatic. This oil which is extracted through cold pressing methods, jumped from health to the cosmetic sector, finding its permanent spot in beauty

treetie / iStock Turkey

rituals. Even though the main producers of grape seed oil are Italy, France, Spain and Argentina, our country also has companies that extract this oil through cold pressing methods and provides this valuable oil to the world. Grape seed oil is known as the true source of Vitamin E and Omega 6 in the beauty world. It's one step ahead with its anti-cancerous properties and heart-risk prevention. One of the biggest reasons why it's preferred in skin care treatment is its ethereal touch. Delaying the onset of aging, it has proven to extend our skin's DNA by 70%. Grapes and anti-aging are words we see together as they remove wrinkles and sagging skin and when used in aromatherapy, they also help the body get rid of all the wear and tear. Chemical reactions, also known as free radicals, as a result of cigarettes, alcohol and pollution have a negative effect on our bodies, bringing the early onset of aging. This situation makes the tiniest grape seed, the most valuable beauty possession ever! The anti-oxidants that are hidden in the seeds are always on the beauty radar; a part of every cosmetic brands aim to have. Grapes prevent skin from sagging and help remove all the unwanted strains from our body when used as an aromatherapy ingredient. Our skin isn't the only part of our body that thrives on the incredible effects of grapes; they help heal hair follicles and hair by striving to bring back a natural glow and vitality to it. It supports the scalp's natural sebum production, repairs dry hair and prevents dandruff. It is also quite effective in repairing split ends. This amazing oil also has protective properties against the sun's harmful rays and can also act as tanning oil. With its 73% linoleic acid content of anti-allergen, it provides healing solutions for acne, dermatitis, atopic eczema and itching. Keep your beauty under control by adding grape seed oils' natural and effective results to your beauty rituals.

### SOYLU MEYVE

► Üzüm tanelerinin M.O. 5000 yılından bugüne leziz tadi, insan sağlığına olan faydalari ve medeniyetlerin güzellik unsuru olusuya tanıyor. Ülkemizde de önemli bir kültür bitkisi olan asmanın ve üzümün Anadoluda köklü bir geçmişe sahip olduğu, kültür yapıtlarak yetiştirdiği ve Anadolukültüründeki vazgeçilmez yeri bilinir. 15.000'in üzerinde çeşidi olduğu tahmin edilen ve ülkemizde de önemli bir düzeyde üreticiliği yapılan üzümün sağlık ve güzelliğe olan faydalari da hatırlı türden. Renk renk ve tulu tanelerin içine saklanmış bu şifalı içeriğin gücünü, geç kalmadan, bir an önce keşfetmelisiniz. Türkiye'de en geniş bağ alanları Ege bölgelerin-

de yer alırken en verimli bağlarla yine Ege, Marmara ve Akdeniz bölgelerinde bulunuyor. Ana vatanının İspanya olduğu tahmin edilen üzüm, sert kabuklu bir bitki olan asmanın meyvesidir. Ülkemizde de birçok bölgede bulunan üzüm bağları sayesinde Türkiye, dünya sıralamasında en çok üzüm yetiştiren ülkeler arasında 6. sırada yer alıyor. Üzümün faydalari analatmakla bitmediği gibi üzüm çekirdeği yağı da mucizevi etkileriyle dikkat çekiyor. Tatlı ve aromali bir yarpaşa sahip olan üzüm çekirdeği yağı "Vitis Vinifera" üzümlerinin tohumlarından elde ediliyor. Soğuk presleme metoduyla çıkarılan bu yağı, sağlık sektöründen kozmetiğe de sıçramış ve güzellik rituel-

meleri eş anlamlı kabul ediyor, kırışıkları gideren ve cilt sarkımlarını önlüyor. Üzüm, aromaterapi yağı olarak kullanıldığında zamanın tüm yirpirici etkilerini cittlen silmeye yardımcı oluyor. Bu mucizevi yağı cildi ayrıca güneşin yirpirici etkilerinden ve güneş yanığından koruyucu özelliklerde sahip. İçeriğindeki %73 linoleik asit anti-alerjen, akne giderici, dermatit, atopik ekzema ve kasıntı tedavisinde zararlı sonuçlar sunuyor. Bu soylu meyvenin aynı zamanda saç bakımında da hatırlı sayılır bir yere sahip olduğunu hatırlatmak zorundayız. Siz de üzüm çekirdeği yağını doğal ve etkili sonuçlarını bakım rutelinize ekleyerek güzelliğınızı koruma altına alın.

# VLOGGER COLLECTIVE A BEAUTY GATHERING

THEY TAKE AND SHARE THEIR VIDEOS ON THE INTERNET ABOUT EVERY STEP IN BEAUTY, WHICH ARE SOMETIMES FOLLOWED BY COMMENTS OF CRITICISM OR COMPLIMENT. THEY ARE YOUNG, EXCITED AND AMBITIOUS. WE SAT DOWN WITH TURKEY'S BEST VLOGGERS AND TALKED ABOUT TURKISH COSMETICS.

**words** melis duygulu **photography** gökhan polat

**What appears in your mind as soon as you hear the word beauty? How do you describe this word?**

**Melodi Elbiriler** I think of being natural.

**Duygu Özaslan** Feeling confident, so whatever you wear you believe it looks great on you and stick to it. For example, you dye your hair green and carry this crazy color as if you have been easily for years. The women I find beautiful most of the time are the ones who have character.

**Aslı Özdel** For me beauty is something relative, it also means looking good and taking care of your self. Basically, I also believe beauty has a lot to do with self-confidence.

**Ayşegül Kaplan** I think I'm the only one who believes beauty comes from the inside. Being hap-

py, it's what I think first. I think women who are happy and have stars in their eyes are beautiful. A face that shows how happy and peaceful it is... A woman who can show this happiness is beautiful. I say it comes from inside.

**So, if beauty is from within, then why do we spend so much money on cosmetics?**

**How can a huge industry continue to exist? Putting aside the sector, why do we use makeup?**

**Ayşegül** To look pretty, but more than that, I put makeup on because it makes me happier. Obviously, others liking it is a big part of this happiness. Even if we admit it or not, getting liked means a lot to us women.

**Melodi** Makeup makes us feel better about our-

selves. Like today, my hair was a mess, I had no makeup on me, and I was working at school. But as soon as I left I went to the hairdresser, got a blow out, put on some makeup and that was it! I was in a better mood. It's impossible to ignore how makeup and looking better can make us feel so good.

**Aslı** My job is makeup, I have my own makeup channel but really, I'm a little too lazy to put on makeup! I'm not against makeup or plastic surgery to look and feel good; people should do whatever makes them happy and beautiful. I don't think there's an end to putting makeup, looking good and buying cosmetics.

**Duygu** If you ask me, makeup reflects how we feel on the inside. Let's say one day, I feel in

power, so red lipstick would represent me. We can be any woman with makeup and this proves the power of cosmetics.

**Recently, the cosmetics world has been claiming that natural beauty and its flaws should be loved and accepted. Do you have any hang-ups or obsessions with perfection?**

**Ayşegül** I never find something that's not perfect, ugly. People on my channel see me naturally with no makeup a lot. I'm not afraid to show that I accept myself the way I am. Only during special projects, photo shoots or at an event will I be a bit obsessive.

**Melodi** If I get a pimple in the middle of my face, yeah I'll get hung up on it, but I wouldn't say I'm looking for perfection. Being natural comes always first for me.

**Do you think this natural beauty trend all brands are after is a long-term decision? Will we see it around in the next couple of years?**

**Duygu** Even if it does for a bit, I really don't see it lasting for a long time. I think our attitude changes a lot here. Actually, what's ironic is; we think we are more natural but all we are learning is to apply makeup lightly, as if it's barely there. So really, all we're doing is changing the way it looks.

**Ayşegül** I really don't think the concept of natural right now, is really natural. If we are using makeup to look like we aren't wearing makeup then yay for cosmetics!

**Melodi** I think this idea changes with time. If someone had told me 5 years ago that I'd be wearing high waisted pants, my reaction would be, "eww what's that, like the pants in my mother's old photos." But now I do wear them! When we were teenagers we wanted Kate Moss's thin eyebrows, now there's the thick eyebrow trend, so we are all trying to go back to being natural; same example here. I think we've realized that keeping it natural is valued more.

**What sort of an attitude does Turkey have accepting flaws? Do you see a difference between Turkey and other countries?**

**Aslı** I don't think this natural thing has really

happened with Turks. Brides are especially never convinced, they choose silver eye shadow for their makeup, but silver always looks like blueish in pictures. It looks too done up and out-of-date.

**Melodi** I believe that in our country we are still looking for perfection, we haven't reached that pureness yet. We are still after pointy noses and baby faces. We even get lots of criticism about this from some of our followers.

**Ayşegül** Yes, our followers definitely have this need for perfection. They like picking out our flaws and rubbing it in our faces. Flaws that we don't realize or care about. We get so many reactions about everything.

**How do you respond to the comments you receive? You get negative and aggressive comments just as much as you get nice ones. How do you deal with this?**

**Melodi** The first thing we do when we wake up is to look at our phones and sometimes we get comments like, "your hair sucks," "today you look ugly," or comments like, "this makeup looks really bad on you." Yeah, this can bother people, but we shouldn't let it get to us because we started this project knowing the risks. We opened our lives to people and we have thousands of followers so it's normal to have both haters and likers.

**Aslı** I think how the comments are expressed is very important. It should never be offensive, no one has a right to do that. Because they have the freedom to follow or not follow a blogger or vlogger. Out of all of us, I get the least amount of negative comments and have the least number of people who don't like me, so I think I'm the luckiest on this subject.

**Duygu** I'm the one who has most of the problems here, I'm always dealing with harsh criticism. Sometimes I can't help but snap or make fun of them. I immediately erase comments that are mean and insulting. Actually, the truth is these people are humiliating themselves when they write those comments, not me.

**Ayşegül** My followers are the 'either love or leave' kind. Maybe it's got to do with my friendly and next-door neighbor approach; even the meanest comment is communicated nicely. They see me as

## BİR GÜZELLİK BULUŞMASI

► **Güzellik kelimesini duyar duymaz akılınızda bilinen ilk şey nedir? Bu kelimeyi nasıl tanımlıyorsunuz?**

**Melodi Elbiriler** Bence doğal olmak.

**Duygu Özaslan** Kendine güvenmek ve bu sayede kendine yakışan diğer her şeyin üzerinde tutmak, ona sadık kalmak. Mesela saçlarını yeşile boyamak ve bu aykırı renki sanki yillardır taşımıştı. Rahatlığına sahip olabilmek. Benim güzel bulduğum kadınların çögü nevi şahsına münhasır tipleri oluyor.

**Aslı Özdel** Güzellik bence göreceli bir şeyle aynı zamanda bakımlı olmak anlamına geliyor. Genel

olarak ben de güzellikin özgüvenle alakalı olduğunu düşünüyorum.

**Ayşegül Kaplan** Güzelliğin içten geldiğine inanan bir ben varım galiba... Mutlu olmak. Benim aklıma gelen ilk şey bu. Bence mutlu ve gözler işıldayan kadın güzeldir.

**Melodi** Makyaj kendimizi daha iyi hissetmemizi sağlıyor. Makyajın ve bakımı görünmenin kadınları daha iyi hissettirdiği gerçegini görmezden gelmek imkansız.

**Duygu** Makyajla istedigimiz kadın olabiliyoruz, bu da kosmetinin gücünün kanıtları nitelikte. **Aslı** Ben burumu çok geniş buluyorum, tüm fotoğraflarda genelde en takıldırmak nokta hep bu oluyor. Bu işte gerçek bir takıntı ama kusursuzluk arayıp değil, çünkü kimse kusursuz değil. **Duygu** Yapılı duran, mükemmel görünen şeylelerden hiç hoşlanmayan biriyim aslında. Yapılığım her işte tavır buluyor. **Türkiye kusurları kabul etmeye nasıl bir tavır sergiliyor size?** **Ayşegül** Mükemmel olmayı asla çırkınlı bulmuyorum. Kanalımda da insanlar doğal, makyajsız halimi çok sık ettiğim için makyaj yapıyorum. Başkalarının

their friends and they don't want to hurt me. This makes me really happy.

**How did Vlogging get in your life? Where did you find the courage to begin?**

**Duygu** I was the first with a channel out of all of us. I loved following and watching foreign bloggers and vloggers. Everyone around me was pushing me and I kept on hearing, "you should do it too." Around that time when the beauty editor of the magazine I was working at pushed me too, I uploaded my first video. Now here we are! By the way, when it comes to work I'm super-disciplined and even though I work at home I stick to a 9-6 schedule.

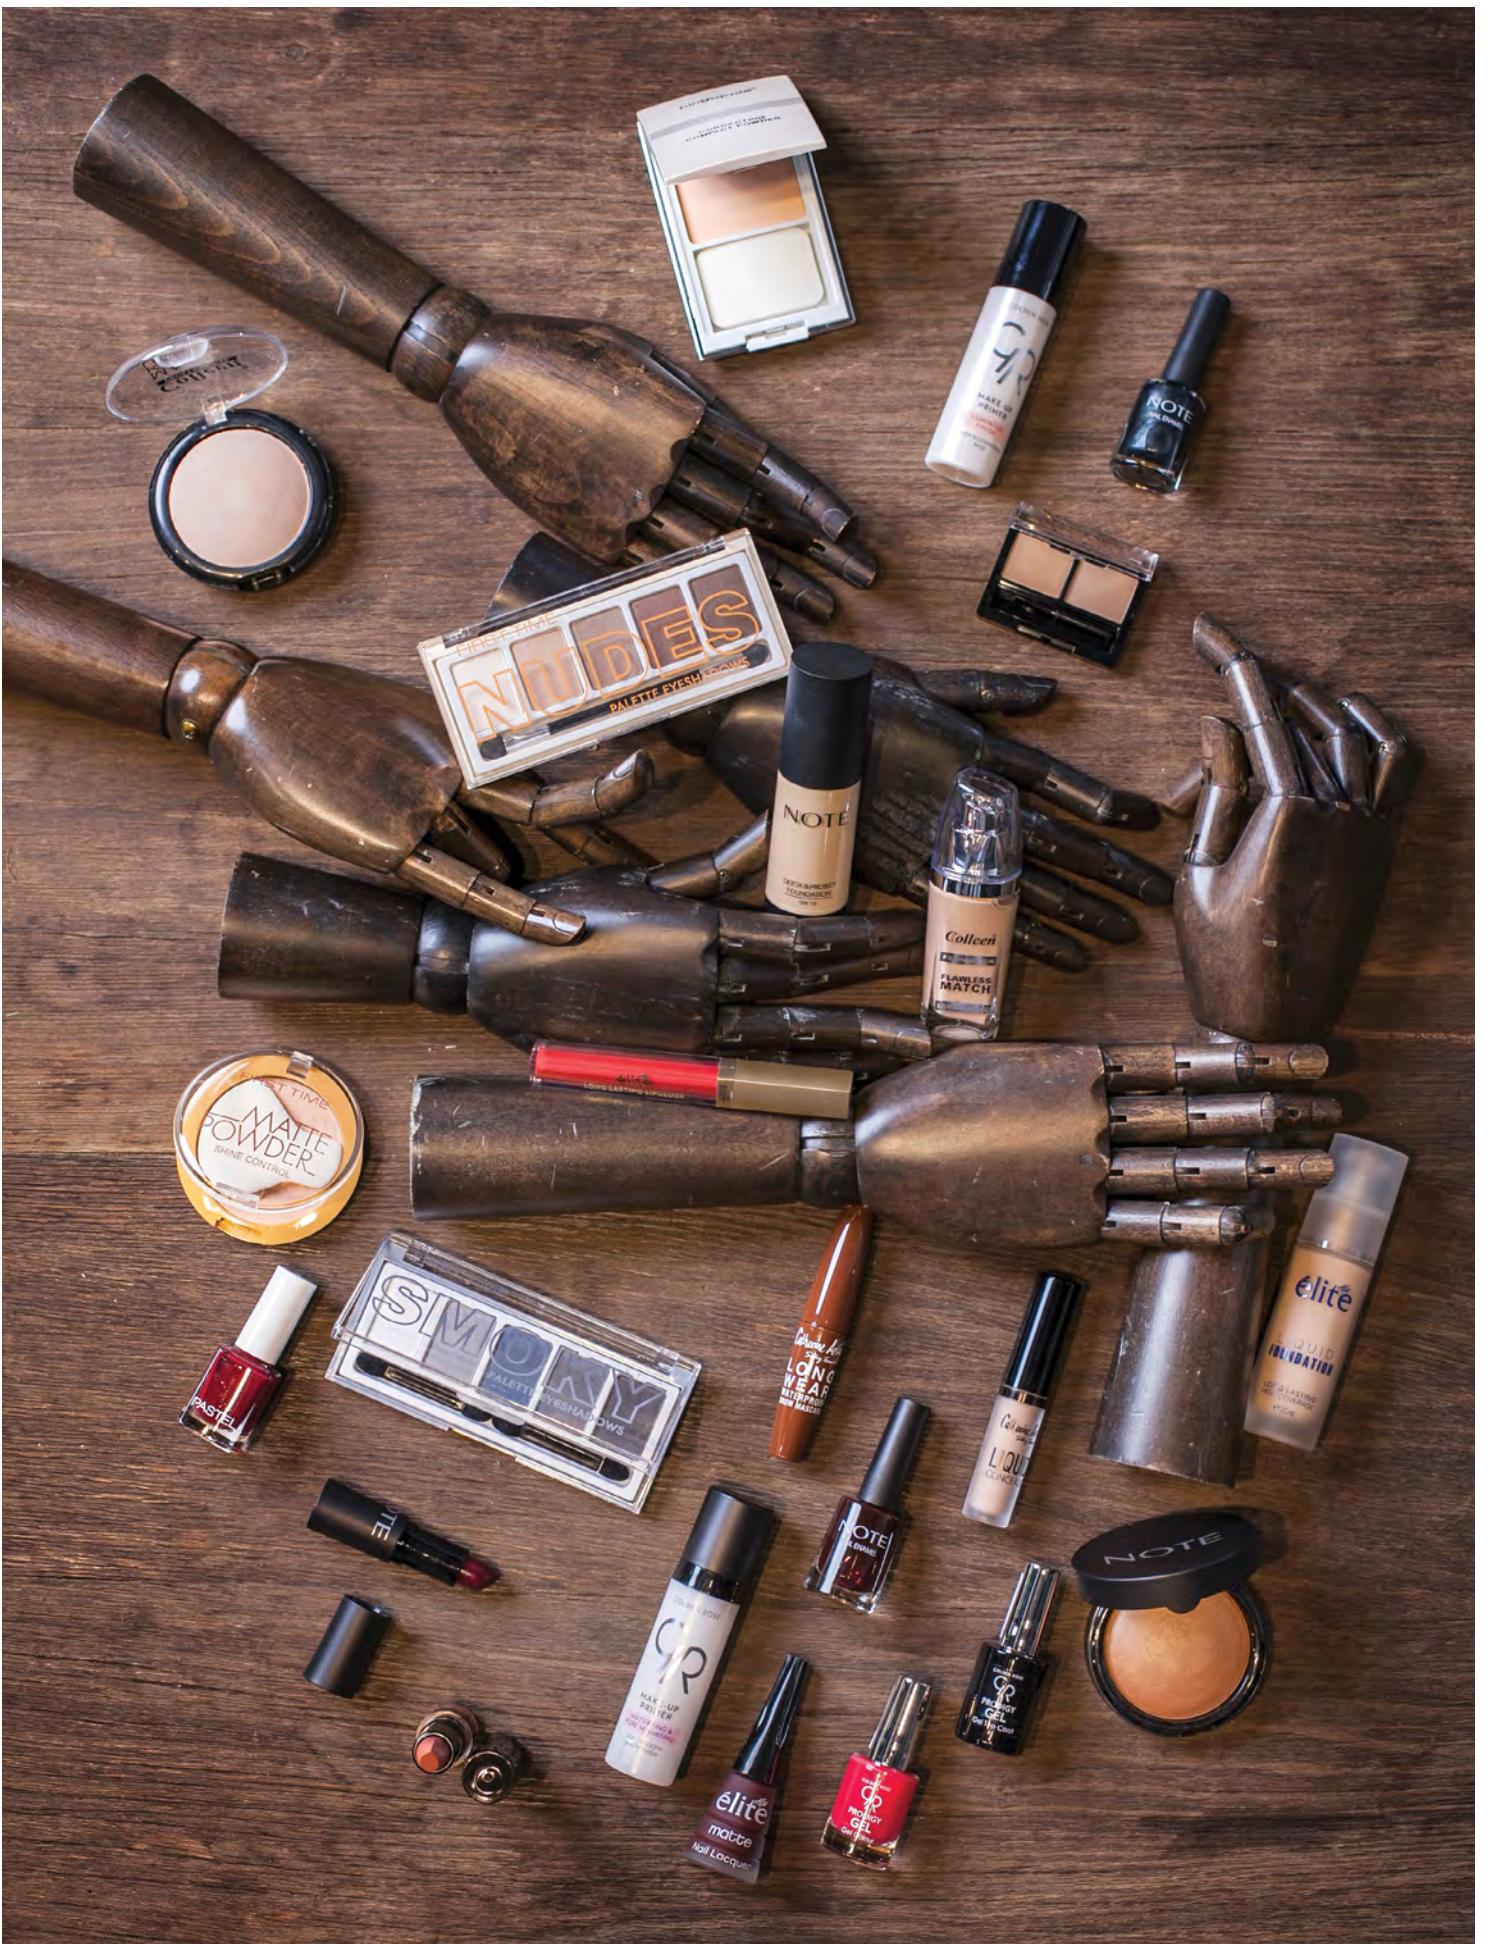

**Melodi** I chose vlogging after I was over corporate and academic life. I'm not the best youtube viewer actually, most of the time I get distracted and cut the video short. I didn't want anyone to know about my channel so I first opened a private account. And after all that time I'm now here. Ayşegül has been extremely supportive of me.

**Aslı** My friends convinced me after I had studied makeup abroad and I had constantly been watching foreign youtube videos already. Did I actually do what the videos would say? No, but I would love

**DUYGU:**  
**"ACTUALLY,**  
**WHAT'S IRONIC**  
**IS; WE THINK**  
**WE ARE MORE**  
**NATURAL BUT**  
**ALL WE ARE**  
**LEARNING IS TO**  
**APPLY MAKEUP**  
**LIGHTLY."**

**Aslı** Ben burumu çok geniş buluyorum, tüm fotoğraflarda genelde en takıldırmak nokta hep bu oluyor. Bu işte gerçek bir takıntı ama kusursuzluk arayıp değil, çünkü kimse kusursuz değil. **Duygu** Yapılı duran, mükemmel görünen şeylelerden hiç hoşlanmayan biriyim aslında. Yapılığım her işte tavır buluyor. **Türkiye kusurları kabul etmeye nasıl bir tavır sergiliyor size?** **Ayşegül** Mükemmel olmayı asla çırkınlı bulmuyorum. Kanalımda da insanlar doğal, makyajsız halimi çok sık ettiğim için makyaj yapıyorum. Başkalarının

# AYSEGÜL: “THERE IS NO COMPETITION BETWEEN US. IN ALL HONESTY, WHEN I SEE OTHERS DO AMAZING WORK IT MOTIVATES ME.”

watching it anyways. Even though I'm really shy I somehow got in front of the camera started this and then it grew. I have to admit that I'm still too shy and still haven't watched my first videos...

**Aysegül** I was working at a radio/television company and I was totally comfortable being in front of the camera. I knew how to prepare the videos and how to speak on camera. I would be the one preparing the content and putting it on the screen, not directing it. It's been a year and a half, after Duygu, I have the oldest videos. Actually it was Duygu who brought attention to my channel. I had taken my first video at home with my tablet, didn't even edit it and had shared too many pictures. Then, Duygu discovered me and shared it on her Instagram. It grew from there...then I wanted this to be my only work.

**You support each other's careers and it is obvious that in time you've become friends. So, is there any competition between you?**

**Duygu** In our group we are always pushing each other to do better. We pass on a bunch of projects to each other quite a lot.

**Aysegül** There is no competition between us. In all honesty, when I see others do amazing work it motivates me. When I see my friends do such great stuff I want to work non-stop.

**Aslı** I want it to be like the British and American Youtubers where everyone is supporting, helping, sharing opportunities and working on projects together. In the end, we're all Turkish and we should be supportive of each other.

**What part of beauty interests you the most lately?**

**Duygu** Right now, I'm into botox and fillers, I'm constantly reading up on them because we've completely covered cosmetics. We aren't coming across a different technology or anything that excites anymore. Different types of the same foundation and lipstick are in stores. Oh, I've also started researching the ingredients of products.

**Aysegül** I'm really into colorful cosmetics. A lipstick that has just come out always gets me pumped!

**Melodi** I'm really scared of plastic surgery, even if

I know I'm going to turn out like Adriana Lima, I'd be too scared to get it done. So, that's why I prefer makeup. Since I've battled with acne all my life, I'm really curious about skin makeup. I'm the expert on foundations and base products!

**Aslı** Botox and the different anti-aging processes really intrigue me too. But I also like that naturalness is in fashion and at least this way we can put off the plastic surgery methods for as long as possible. Yay for wrinkles and flaws!

**Do you have a special appetite for new products? Do you try everything that's new?**

**Aysegül** And do we! We go insane. Let's just say I live to buy something new. I have so much fun with cosmetic products.

**Duygu** I think I've gotten this out of my system. There are still products I got 3 months ago that I haven't even opened yet. Before I used to buy so many products that now I only buy the ones I use.

**Melodi** I'm a tad bit more sensitive on this topic. The huge amounts of products that will go bad without even being used really make me think. I'm against waste.

**Are you committed to the products of brands you love? Are there products you use and always buy again once its finished?**

**Aslı** I'm obsessive on this subject, I stock up on the products I love. For example, I use a mascara that isn't found in Turkey, so every time I travel abroad I always buy it. There are some iconic products I use that I can never give up on. Especially when it comes to foundation.

**Melodi** I'm definitely always curious about products that can be found abroad and not here.

**Aysegül** I have a hard time sticking to just one makeup in a day so I'm open to trying different brands and products.

**Turkish cosmetic brands have come along way in the last couple of years. Do you follow them? How do you see its future?**

**Duygu** Turkish brands are really taking over, their bronzers and lipsticks are top notch. Keep-

ing up with the trends and product design is the biggest trouble. There's this idea that Turkish women prefer what's only classic but this idea is completely off.

**Melodi** They are definitely on the attack and taking over. Like before there weren't any matte lipsticks or base products in Turkish brands and now there is. They just need to work more on packaging.

**Aslı** I think they've been really amazing and I believe it's growing very fast. We can now find matte lipsticks and illuminators in Turkish brands. As for price, I think they should be more affordable. **Lastly, if you could give one beauty tip what would it be?**

**Duygu** Be yourself, create your own style. If you like yourself, others will like you.

**Aslı** Be at peace with yourself. If you are then nothing will bother you and you'll take the path best for you.

**Melodi** Being happy should be your first goal.

**Aysegül** Don't be afraid to express your love. Being happy and smiling won't ruin your coolness. I don't think you have to pout to be cool. A beautiful woman is one who smiles. ↗

## BİR GÜZELLİK BULUŞMASI

**Melodi** Ben de ülkemizde mükemmel arayışının tam gaz devam ettiğini düşünüyorum, o sadelige henüz gelemedi.

**Vlogging nasıl hayatına girdi? Başlama cesaretini nasıl buldunuz?**

**Duygu** Aramızda kanalını ilk açan benim. Yabancı blogları ve vlogları takip ediyordum, izlemeyi çok seviyordum. Çevrem de bu konuda beni sürekli ikna etmeye çalışıyordu, 'sen de açsana' cümlesi sürekli duyuyordum. O dönem çalıştığım derginin güzellik editörü de teşvik edince ilk videomu yükledim.

**Melodi** Ben kurumsal ve akademik hayatın sıkılığından bunalıp bu işi seçtim. Önce kendime gizli bir hesap açtım, kimse bilsin istemedim. Sonra zamanla buralara geldim, Aysegül'ün müthiş desteği oldu bana.

**Aslı** Ben yurtdışında makyaj eğitimi aldıktan sonra arkadaşlarım cesaretlendirdi. Yabancı youtuber'ları zaten izliyordum sürekli. Aslında çok utanmama rağmen bu kadar göz önünde olmakta bir şekilde başladım ve ilerledim.

**Aysegül** Ben bir radyo/televizyon firmasında

çalışıyorum ve kamera önünde son derece rahattım. Videoların nasıl hazırlanıldığını, nasıl konuşulması gerektiğini biliyordum. Videoyu çeken kişi deejildim ama içeriği hazırlıyordum, onu ekrana uyarlıyordum. Duygu'dan sonra en eski videolar benimdir, bir buçuk yıl oldu doldurdum.

**Türk kozmetik markaları da özellikle son senelerde müthiş bir yol katetti. Onları takip ediyor musunuz?**

**Aysegül** Son zamanlarda dünya trendlerini yakından takip ediyorlar, bu da hoşuma gidiyor ama ürün

çeşitliliği ve renk konusunda daha çok çalışılabilir.

**Duygu**

Ben Türk markaların son dönemde ciddi bir

yol katettiğini düşünüyorum. Ürünleri giderek daha

iyi oluyor.

**Melodi** Bence kesinlikle ataktalar. Mesela mat rujlar ve bazlı Türk markalarında hiç yoktu ve artı var.

Sadece ambalaj konusunda biraz daha çalışılmalı.

**Aslı** Çok başarılı buluyorum ve hızla geliştiğini düşünüyorum. Artık birçok Türk markasında mat rujlar, aydınlatıcı ürünler bulabiliyoruz. Fiyat konusunda da ulaşılabilir olmaya devam etmeliler bence. ↗

# İSMET ENSARI TALES OF THE OLIVE

ONE OF BEAUTY'S MOST CRUCIAL AND FASCINATING RAW MATERIALS, OLIVE OIL IS BEING TURNED INTO NATURAL SOLID SOAPS AT KORKUT OLIVE OIL AND SOAP CORPORATION İSMET ENSARI TELLS US ABOUT THIS ROOTED COMPANY AND THE BRAND STORY OF OLIVOS.

**questions** deniz koçak **photography** Olivos

**What is the story behind the establishment of Korkut Olive Oil and Soap Corporation?**

Korkut Olive Oil and Soap Corporation was established in Edremit many years ago, then known as Pidasus where there has been a long historical culture of traditional olive oil soaps. We still continue to provide services from the same place today. By combining the innovative concept of Olivos with Korkut Sabun in 2010, a company with an understanding of and experience in production, we were able to bring value to olive soaps in both domestic and international markets. For the last 30 years, the Olivos brand has been successfully introduced abroad and it proudly carries the title of the leader in exports on its packaging here in Turkey.

**Where does the name Olivos come from?**

**Among your products olive oil based soaps stand out the most, but in per-**

sonal care and cosmetics you have other impressive products, correct?

Other than our perfume and luxurious group, we have SPA and organic products, and another Ottoman inspired series. Our most extensive group consists of liquid products such as liquid soap, shampoo, baby shampoo and shower gel are among these.

**How do you preserve the naturalness of your soaps? What other raw materials are being used other than olive oil?**

Their contents vary. We use natural plant extracts and plant seeds with all the different aromatic scented oils we use for each of the soaps we want to create. None of our products have chemical supplements in them, we avoid animal oils and fat.

**Do you choose to specifically focus on soap?**

Yes, it is important for us to be the best at

◀◀ SABUNUN ÖYKÜSÜ ▶▶

**►► Korkut Yağ Sabun Sanayi A.Ş.'nin nasıl bir kuruluş hikayesi var?**

Korkut Yağ Sabun Sanayi A.Ş. çok uzun yıllar önce, geleneksel zeytinyağı sabunu kültürünün çok eski tarihlerle kadar uzandığı dönemlerde Pidasus olarak bilinen Edremit'te inşa edilmiş. Dünden bugüne Korkut Sabun'un üretimi teknik tecrübesi ve geleneksel üretim anlayışı 2010 yılında Olivos'un yenilikçi anlayışıyla birleşerek zeytinyağı sabununun yurt dışında ve yurt içinde hak ettiği değeri kazanmasını sağladı. 30 yıldan beri Olivos markası, yurt dışına zeytinyağını başarıyla

tanıtıyor, Türkiye'de de ambalajlı zeytinyağı ihracat liderliği unvanını gururla taşıyor.

**Ürünlerinizin temel içeriğini zeytinyağı oluşturuyor. Bu değerli yağıla bu kadar uzun süre çalışan biri olarak onu nasıl tanıtırınız?**

Yağını kullandığımız zeytin, besleyici değeri dünyaca bilinen bir kaynak. Bünyesinde bol miktarda bitkisel protein, yağ, A, C ve E vitaminleri, kalsiyum, fosfor, kükürd, klor ve magnezyum mineralleri barındırıyor. Dermokozmetik amaçlı kullanıldığında cilde güzellik bulunan bir serimiz mevcut. En kapsamlı grubumuz saç dökülmesini engelliyor, saç tellerini

şampuanı ve duş jelleri bunların arasında sayılabilir. Sabunlarınızın doğallığını nasıl koruyorsunuz?

**İçeride zeytinyağı dışında başka hangi maddeler bulunuyor?**

İçerikleri değiştirmiyor. Yaratmak istediğimiz sabuna özel olarak hazırlanan farklı aromatik esans yağıları, doğal bitki özleri ve bitki tohumları kullanıyoruz.

**Sabuna odaklanmayı özellikle mi tercih ediyorsunuz?**

**"EACH DAY WE ARE FOCUSING MORE ON OUR AREA OF EXPERTISE, WHICH IS OLIVE OIL SOAP, SO WE CAN PROVIDE OUR CUSTOMERS WITH A RICHER AND BETTER SOAP."**

what we do. We are currently not planning to produce a different product other than in our solid and liquid soap department. Therefore, each day we are focusing more on our area of expertise, which is olive oil soap, so we can provide our customers with a richer and better soap. Our priority has always been our olive oil soap.

**In the past, soap was seen as a cleaning tool, but today natural soaps have an important place in the beauty world. How do you assess this position?**

Olive oil has especially got a huge share in this rise because it is able to prevent and delay wrinkles. Meaning it is a quite powerful raw material in terms of anti-aging. When used continually it deeply cleans the skin providing oxygen supply and increases blood flow. Another advantage of soap is it encourages

you to wash your face and massage with your fingertips. As result, blood flow increases and cells renew.

**Your products must attract the attention of mothers with their natural ingredients. Other than soaps do you plan on adding a new product series for babies?**

It is extremely important to use olive oil soap when washing clothes of newly born babies in the first three years and for general cleaning as well to avoid any allergic reactions or skin rashes that may appear in babies. Mother's should be very sensitive in this aspect. We see the number of mother's realizing this increase year after year. We are currently producing baby soaps for babies. Alongside this, we have completed our R&D work towards

producing a special soap power for babies so their clothes could be washed more easily.

We will begin production very soon and offer this for mothers.

**Which one of your products is in most demand?**

Almost all of the products we produce are in high demand and favored by our customers. We have especially seen a lot of interest in our goat milk and donkey milk soaps here and abroad in the last months. Our most important product is our organic based soap. We are the only company in Turkey to produce an organic soap and we believe this product to be the world's healthiest skin care soap. Our organic certification is from the Italian ICEA (Institute of Ethic Certification) Organic Body.

**Do you do all of your production at the factory in Edremit? How does the production process work?**

Yes, we do all of our production in Edremit.

Evet, bizim için yaptığımız işte en iyi olmak önemli. Şu anda katı sabun ve sıvı grubumuz dışında farklı bir ürün üremeyi düşünmüyorum. Dolayısı ile her geçen gün hamadden. Devamlı kullanıldığında cildi derinlemesine temizleyerek oksijen girişini sağlıyor ve kan akışını kaliteli bir içerik ve daha güzel sunumlarla tüketiciye sunmaya odaklanıyoruz.

**Sabun, önceleri sadece bir temizlik aracıken bugün doğal sabunlar, güzellik dünyasında da önemli bir yere sahip. Siz bu durumu nasıl değerlendirdiğinizden musunuz?**

Yeni doğan bebeklerin hassas ciltlerinin aşınmaması ve alerjik bir takım rahatsızlıklara maruz bırakılmaması için

cünkü bir özelliği de kırışıkları geciktirmesi ve ilk iki üç yıl hem vücut temizliğinde hem de gisilerinin yanılışında zeytinyağı sabununun kullanılması çok önemlidir. Şu anda bebeklerimiz için bebek sabunu ise organik katı sabunumuz, Türkiye'de organik katı sabun üretimi için de ar-ge çalışmalarımızı tamamladık.

En kısa sürede üretme geçip annelerin kullanımına sunacağınız.

**En çok hangi ürünleriniz talep görüyor?**

Ürettğimiz ürünlerimizin neredeseysse tamamı tüketicilerim tarafından çok beğeniliyor ve talep

görüyor. Özellikle son aylarda ürettiğimiz keçi südü sabunu ve eşek südü sabunlarımız hem yurt içinde hem de yurt dışında büyük ilgi çekti. En önemli ürünüm ise organik katı sabunumuz, Türkiye'de organik katı sabun üretimi tek firmamız ve bu ürünümüzün dunyanın en sağlam sabunu olduğunu iddia ediyoruz. Organik belgemiz İtalyan ICEA Organik Kuruluşu tarafından onaylıyor.

**Ürünlerinizin tamamı Edremit'teki fabrikanızda mı yapılıyor? Nasıl bir üretim sürecinden geçiyorsunuz?**

The prepared soaps are first rested and then go through other processes such as drying and moisture balancing. Once the soaps are turned into chips, they are mixed with aromatic oils and blended or mixed with plant seeds. They later go through kneading and grinding processes. Once they are cut into wedges they spend a day on special shelves. The soaps on the shelves are shaped according to weight, then go through an inspection and finally off to packaging. All of the packing is done completely by hand by our experienced employees. Our manufacturing and packaging operations are all done by hand so our soap production takes some time, meaning it really holds a special place for us.

**You regularly attend fairs organized abroad. What sort of reactions do you receive?**

It makes us very happy to see that our products show great interest in all the international fairs we have joined. In the last two years we have increased the number of countries we export to 20. I can easily say that the Olivos brand has been received very well.

**How are you with travelling?**

I love to travel. I prefer to see new places and be constantly on the go, so I'm not lazy when it comes to travelling. I'm quite the enthusiastic tourist. During all of my business trips, I only

have one question in my mind: "What sort of a contribution will this trip have to our products?"

**How about outdoor activities? Is sports a part of your life?**

No, unfortunately it is not, since I have an intense six-day workweek. I spend most of my time on my feet, constantly active because I love being apart of every step in the production process. This is how I console myself. The rest of my time in the office passes with e-mails and meetings.

**As a man what do you do for your personal care?**

The only product I use in my personal care is the extremely valuable olive oil soap we produce. Other than that I don't find the need to use another product, everything else becomes unnecessary. Nonetheless, the most important step in skin is cleansing. ↵

**"OUR MANUFACTURING AND PACKAGING OPERATIONS ARE ALL DONE BY HAND SO OUR SOAP PRODUCTION TAKES SOME TIME, MEANING IT REALLY HOLDS A SPECIAL PLACE FOR US."**

- 5 Atelier Rebul Amber Scented Candle/*JCR Kozmetik*

## CROWNING GLORY

DUE TO FACTORS LIKE STRESS, POLLUTION AND IMPROPER CARE, YOUR HAIR CAN BE DAMAGED EASILY. THAT'S WHY YOU NEED THESE LIFE SAVERS.

SAÇ OYUNLARI

**Stres, kirlilik ve yanlış bakım gibi faktörler yüzünden saçlarınızın yıpranması an meselesi. İşte tam da bu yüzden bu kurtarıcılarla ihtiyacınız var.**

## FIRST MOVE

SINCE TIME IMMEMORIAL, CLEANSING HAS BEEN THE MOST IMPORTANT PART OF ANYONE'S BEAUTY ROUTINE. REMEMBER, YOU NEED TO BE GENTLE.

İLK ADIM

**Hafızanın uzanamayacağı tarihlerden beri, temizlik herkesin güzellik rutininde ilk sırada yer aldı. Cildinize karşı nazik olmayı unutmayın.**

- 1 Passionate Argan Tree Oil Hair Serum/[Ukip Kozmetik](#)
- 2 Prize Cosmetics 2+1 Hair Care Shampoo/[Pereja Cosmetics](#)
- 3 Bebak Argan Hair Care Oil Moroccan Treatment Oil/[Sora Kozmetik](#)
- 4 Banat Romance Syling Hair Brush/[Banat Firça](#)
- 5 Natur Way Otacı Shampoo with Garlic/[Kurtsan İlaçları](#)

- 1 Bluemoore Luxury Breeze Bath & Shower Gel/[Universal Kimya](#)
- 2 Atelier Rebul Green Tea Shower Gel/[JCR Kozmetik](#)
- 3 Golden Rose Purifying Tonic /[Erikul Kozmetik](#)
- 4 Bebak Refreshing Facial Wash Gel/[Sora Kozmetik](#)
- 5 Dalan Antique Lavender Soap /[Dalan Kimya](#)

## THE WARRIOR

FIGHT LINES WITH THESE ANTI-AGING MIRACLES; A HANDFUL OF EFFECTIVE YET EASY TO USE PRODUCTS THAT WILL HELP YOU CHEAT!

« GÜÇLU SAVAŞÇI »

**Çizgilerle savaşırken bu anti-aging mucizelerine şans verin; etkili ve kullanımı kolay bu ürünlerle zamanı kandırmak çok kolay.**

- 1 Meditrina Oliva Hand and Body Cream/*Akdeniz Company*
- 2 Atelier Rebul Snow Algae Rejuvenating Cream/*JCR Kozmetik*
- 3 Pharmazon Professional Skin Care Cream/*Amaç - Net Cosmetics*
- 4 Fonex Fruity Hand & Body Butter/*Fonex Kozmetik*
- 5 Queenlight Anti-Aging Night Cream/*Universal Kimya*

## FLOWER POWER

NEED A SIGNATURE SCENT? GO FOR A FLORAL PERFUME TO MAKE YOU FEEL FRESH, CLEAN AND YOUR BEST AT ALL TIMES.

« ÇİÇEK ÇOCUKLAR »

**İmza kokunuzu hala bulmadınız mı? Kendinizi her zaman taze ve temiz hissedebilmek için çiçeksi bir parfüm seçin.**

- 1 Thalia Golden Way Tsubaki Flower Hair Conditioner/*Akten Kozmetik*
- 2 Atelier Rebul Eau de Cologne Rose Intense/*JCR Kozmetik*
- 3 Aromel Emotion Asian Garden Eau de Toilette/*Evyap A.Ş.*
- 4 Meena Rush for Woman Perfume Spray/*Crea Kozmetik*

## MAN MADE

MEN KNOW WHAT THEY WANT, AND WHAT THEY WANT IS PRACTICAL, FUNCTIONAL PRODUCTS THAT MAKE LIFE EASY AND CHANGE THE SKINCARE FOR BETTER.

ERKEKLER İÇİN

**Erkekler ne istediklerini bilir, istedikleriye hayatlarını ve cilt bakımlarını daha iyiye götüren, pratik ve işlevsel ürünlerdir.**

- 1 Imaj Men Refreshing After Shave Balm/[Ukip Kozmetik](#)
- 2 Espejo Action After Shave Cologne/[Ukip Kozmetik](#)
- 3 Arko Men Comfort After Shave Balm/[Evyap A.Ş.](#)
- 4 Blueoore After Shave Cream Gel with Aloe Vera/[Universal Kimya](#)

## SPLASH

CUTE, FLIRTY AND SUBTLE. THESE BODY MISTS ARE LIGHT, THEY'RE AIRY AND THEY AREN'T NEARLY AS HEAVY AS A PERFUME.

HAFİFE AL

**Tatlı, flörtöz ve hemen göze çarpmayan bu kokulu vücut ürünleri, hafifler, havadarlar ve asla bir parfüm kadar yoğun degiller.**

- 1 Thalia Golden Way Tsubaki Flower Body Mist/[Akten Kozmetik](#)
- 2 She 24 Hours Perfumed Deodorant Spray/[Hunca Kozmetik](#)
- 3 Imaj Intense Passion Body Splash/[Ukip Kozmetik](#)
- 4 Prize Cosmetics Gourmand Body Mist/[Pereja Cosmetics](#)

## EYE TO EYE

MOST PEOPLE DON'T THINK ABOUT THEIR EYES UNLESS THEY'RE PUTTING ON MAKEUP.  
BUT YOUR EYES NEED JUST AS MUCH CARE AS YOUR SKIN DOES.

« GÖZÜM ÜSTÜNDE »

Tıpkı cildiniz gibi göz çevrenizin de yoğun bakımı ihtiyacı var. Bu hassas bölgeyi koruma altına alın.

## RIGHT ON TARGET

MULTI-TASKING IS IMPORTANT, BUT SOMETIMES ALL YOU NEED IS A PRODUCT SPECIFICALLY CREATED FOR A BEAUTY PROBLEM. DIVIDE AND CONQUER!

« HEDEFİ ODAKLAN »

Çoklu görevleri yerine getirmek önemlidir ama bazen özel bir güzellik problemini halletmek için tasarlanmış ürünlerde ihtiyacınız olabilir.

- 1 Freshmaker Make Up Remover Pads/*Fulya Kozmetik*
- 2 Golden Rose Two Phase Make-Up Remover/*Erkul Kozmetik*
- 3 Talya Roll-on Under Eye Contour Care Serum/*Talya Bitkisel*
- 4 Queenlight Anti-Aging Eye Cream/*Universal Kimya*
- 5 Bluemoore Men Eye Cream with 3D Effect/*Universal Kimya*

8 Natur Way Shampoo / *Otaci / Kurtisan İlaçları*

# TOP NOTES

WHAT IS THE PERFECT FRAGRANCE TO PAIR WITH YOUR WINTER COAT?  
MAYBE IT'S THE SCENT OF HOT AMBER, OR A TINY DROP OF FRESH AND  
GREEN BERGAMOTE... TO FIND OUT YOU MUST TRY.
