Company Profile: AKTIF DIS TICARET was established in 1993 to serve in medical industry. The company started its trading activities initially by importing special devices which enable archive documents to be transferred to electronic media and ensure recording and storing of such in micro-films and presenting the products to Turkish user. Having served as a Turkey representative of globally known companies in field of radiological accessories in 1995 and specialized on x-ray protection aprons, the company imported and distributed x-ray protection aprons to all around Turkey for a long while, and later, it has started to manufacturing of x-ray protection aprons with its own brand AKTIF x-ray since 2002. The use of x-ray protection aprons is highly essential for human health in any field requiring radiological examinations, regardless of the x-ray dose. X-ray protection aprons are strictly obligatory for institutions related to protective equipment directive in every country at the licence stage of radiological imaging centers.
