

The Need for Medical Supplies for Ukraine

1. Non-invasive ventilation system (BIPAP/CPAP)
2. Compressor to provide breathing apparatus
3. Physiological indicators monitoring system (ECG, BH, HR, pulse oximetry)
4. Vacuum cleaner (tracheal suction system)
5. Dispenser of medicinal substances
6. Wall mounted oxygen dispenser with humidifiers
7. Fiber optic intubation stiletto
8. Set for conectomy
9. Laryngoscope (including blade set)
10. Infusomat
11. Videolaryngoscope
12. Capnograph / capnometer
13. Spirometer
14. Pulse oximeter
15. Oxygen concentrator
16. Bactericidal irradiator
17. Fibrobronchoscope
18. Bag of manual ventilation (of Ambu type)
19. X-ray diagnostic apparatus
20. Blood gas analyzer capable of determining electrolytes, glucose and lactate
21. Thermal blanket
22. Disposable medical cap
23. Kevlar gloves (high risk gloves)
24. Medical Apron
25. Disposable shoe covers
26. Rubber boots
27. Rubberized waterproof medical apron
28. Medical gauze
29. N 95 mask
30. FFP2 maskeleri
31. Tek kullanımlık koruyucu tulumlar
32. -Çok kullanımlık koruyucu tulumlar
33. -üç katlı cerrahi maskeler
34. -spunbond 17g/m², 30g/m²
35. -meltblown 25g/m²
36. -yuvarlak lastik bant 2,5mm-3mm
37. -otomatik medikal maske üretim hatları
