

Chemical Industry Exports in the Month of January were 1.64 Billion Dollars

According to the data of Istanbul Chemicals and Chemical Products Exporters' Association (IKMIB), the worthy of 1 billion 636 million dollars of chemical substances and products were exported in January 2021. Italy was the country with the highest exports of chemicals and products in January, while the USA ranked second with an increase of 76.70 percent. Exports to Lebanon increased by 68.33 percent.

Evaluating the January export figures of the chemical industry, Adil Pelister, Chairman of Istanbul Chemicals and Chemical Products Exporters' Association (IKMIB), said, "Our chemical industry completed the year 2020 as the second most exporting industry with exports worth \$ 18.3 billion. In January this year, chemical substances and products were exported with a decrease of 2.82 percent compared to January last year, amounting to \$ 1.64 billion. Although we started the year under the shadow of the pandemic globally, our hope is that we will enter a more positive process, especially in the second half of the year, depending on the spread and impact of vaccination. Turkey Manufacturing PMI (Purchasing Managers Index) index is 50.8 in December, the data show that rises to 54.4 in January. We anticipate that the increase in production will reflect positively on our exports in the coming months. Within the scope of our government's reform efforts, we expect the chemical industry to be given priority in investments. As IKMIB, we prepared a report that identifies priority areas for investment in our industry. We shared the "Turkish Chemical Industry Investment Products Report" with both our relevant Ministries, our industry and the public. We believe that this report will guide those who want to make domestic investments in our industry. We aim to complete the year 2021 with 12 percent growth in our exports."

The country to which the most chemical exports were made in Jan was Italy

Italy was the top export country in January.

Other countries in the top ten, following Italy in January, were the USA, Germany, Lebanon, Iraq, Spain, Britain, Israel, France and Egypt. While there was an increase in exports to 7 out of 10 countries to which the most exports were made in January, there was a contraction in exports to Italy, Iraq and Egypt. Among these countries, the highest increase was to the USA, followed by Lebanon, France and Spain.

Chemical exports to Italy were 103 million 197 thousand dollars in January 2021. In January, mostly "mineral fuels, mineral oils and products", "plastics and their products", "inorganic chemicals", "organic chemicals" and "rubber, rubber goods" were exported to Italy.

"Plastics and products" exported most in January

Exports of plastics and their products in the chemical substances and products product groups in January ranked first in chemical exports with 534 million 913 thousand dollars. Mineral fuels, mineral oils and products ranked second with exports of 361 million 445 thousand dollars, while inorganic chemicals exports ranked third with 158 million 164 thousand dollars. Following inorganic chemicals, the other sectors in the top ten are: 'Rubber, rubber goods', 'pharmaceutical products', 'essential oils, cosmetics and soap', 'paints, varnishes, ink and preparations', 'miscellaneous chemicals', 'organic chemicals' and 'washing preparations'.

In January, the highest increase in exports in sub-sectors was in the pharmaceutical products sector with 32.28 percent, while the highest contraction occurred in the mineral fuels, mineral oils and products sector with 32.73 percent.

Ocak ayında en fazla ihracat yapılan ülke İtalya oldu

İtalya, Ocak ayında en çok ihracat yapılan ülke oldu. Ocak ayında İtalya'yı takip eden ilk onda yer alan diğer ülkeler ise ABD, Almanya, Lübnan, Irak, İspanya, İngiltere, İsrail, Fransa ve Mısır oldu. Ocak ayında en çok ihracat yapılan 10 ülkeden 7'sine ihracat artışı olurken, İtalya, Irak ve Mısır'a yapılan ihracatta daralma yaşandı. Bu ülkeler arasında en çok artış ABD'ye olurken onu Lübnan, Fransa ve İspanya takip etti.

İtalya'ya yapılan kimya ihracatı 2021 yılı Ocak ayında 103 milyon 197 bin dolar olarak gerçekleşti. Ocak ayında İtalya'ya en çok "mineral yakıtlar, mineral yağlar ve ürünler", "plastikler ve mamulleri", "anorganik kimyasallar", "organik kimyasallar" ve "kauçuk, kauçuk eşya" ihraç edildi.

Ocak ayında en çok "plastikler ve mamulleri" ihracatı gerçekleştirdi

Ocak ayında kimyevi maddeler ve mamulleri ürün gruplarında plastikler ve mamulleri ihracatı, 534 milyon 913 bin dolarla kimya ihracatında ilk sırada yer aldı. İkinci sırada 361 milyon 445 bin dolarlık ihracatla mineral yakıtlar, mineral yağlar ve ürünler yer alırken, anorganik kimyasallar ihracatı 158 milyon 164 bin dolarla üçüncü sırada yer aldı. 'Anorganik kimyasallar'ı takiben ilk onda yer alan diğer sektörler ise: 'kauçuk, kauçuk eşya', 'eczacılık ürünleri', 'uçucu yağlar, kozmetikler ve sabun', 'boya, vernik, mürekkep ve müstahzarları', 'muhtelif kimyasal maddeler', 'organik kimyasallar' ve 'yıkama müstahzarları' oldu. Ocak ayında alt sektörlerde en çok ihracat artışı yüzde 32,28 ile eczacılık ürünleri sektöründe olurken en fazla daralma ise yüzde 32,73 ile mineral yakıtlar, mineral yağlar ve ürünleri sektöründe meydana geldi.
