# ABOUT İKMİB

Istanbul Chemicals and Chemical Products Exporters' Association (İKMİB) takes active part in international organizations in order to sustain the professional ethics and cohesion of Turkish export companies in the chemicals industry, help increase export levels, diversify export products, help increase products' competitiveness, defend its members' rights and interests and help them form strong relationships in the international arena and support them to get into new markets since 1991. İKMİB efficiently and successfully represents the Turkish chemical sector with the support of the Ministry of Trade and Turkish Exporters Assembly in Turkey as well as in the world. In the chemical industry with its 16 sub sectors such as plastics, cosmetics, medicals and pharmaceuticals, rubber and paint, İKMİB remarkably contributes to the Turkish economy and export and also adds value to the country by supplying raw materials for many sectors such as automotive, textile, and food.

The national participation fairs and sectoral trade and buyer missions organized by İKMİB plays a vital role for chemical exporters to reach new markets. İKMİB carries out many activities in order to increase the exports of companies which operates in health sector including pharmaceuticals, medical and dental products. İKMİB organizes the national participation fairs such as ARAB Health, Medica, IDS, AEEDC which are well-known in the health sector. It also carries out two different Cluster projects in pharmaceutical and health sectors. İKMİB also achieves sectoral trade missions to Far-East, South America and Africa and buying missions concurrent with important domestic fairs. By organizing pharmaceutical and medical committee meetings, it offers opportunities to assess the problems and solutions of the sector. İKMİB also organizes medical and pharmaceutical workshops by bringing the sector partners together.

[www.pakten.com](http://www.pakten.com)

**Company Profile:** We, as Pakten Health Products Co., are manufacturer of Baby Diapers, Adult Diapers, Adult Pants, Wet Wipes, Bed Sheet, Liquid Soap and Baby Shampoo in Gaziantep, Turkey since 2000. Pakten's greatest principle is to produce quality products and to bring its consumers together with the products of the latest technology. Exporting 70 percent of its manufactured products, Pakten has been among the Top 1000 largest industrial enterprises of Turkey since 2013.

All our products are produced under ISO 9001 quality assurance certificate and our delivery term is very short depending on production capacity of 1.6 billion baby diapers, 78 million adult diapers, 10 million wet wipes and 2.700 ton liquid soap per year with last technological production lines.

Our baby and adult diapers were clinically tested by reputable German laboratory 'Dermatest GmbH'. Dermatest has 3 different type of test depending on sensitivity level, those - Normal, 3 Star and 5 Star Premium Quality. Our goods passed all clinical tests of Dermatest and have been awarded the 5 Star Premium Quality award. Thus, the quality of our products has been approved by German Dermatest Laboratory.

In addition to this we have been awarded the Oeko-Tex certificate by passing hundreds (over 500) tests conducted in independent, reputable laboratories of the world, which conduct tests to ensure that it does not contain harmful substances and can be used safely in babies / adults. We are the first and only company among the manufacturing companies to be entitled to award this certificate.

For further details about our company you may also visit our website at [www.pakten.com.tr](http://www.pakten.com.tr)

**Company Profile:** Our company was established in 2016 and continues its commercial activities in its own building with a closed area of 22.000 m<sup>2</sup>. Since 2019, our company has been producing medical products that cannot be produced in our country by conducting R & D studies in order to meet the needs in the medical sector. Remar Medikal is the first and only company in Turkey to manufacture the Automatic CPR chest compression device, which is the first of these products and is used in cardiac arrest cases.

**Brands:** CEPER1

**Products:** AUTOMATED CPR CHEST COMPRESSION DEVICE

**Certificates:** CE, ISO 13485, TSEHYB
