MINISTRY OF TRADE

ABOUT İKMİB

Istanbul Chemicals and Chemical Products Exporters' Association (IKMIB) takes active part in international organizations in order to sustain the professional ethics and cohesion of Turkish export companies in the chemicals industry, help increase export levels, diversify export products, help increase products' competitiveness, defend its members' rights and interests and help them form strong relationships in the international arena and support them to get into new markets since 1991. İKMİB efficiently and successfully represents the Turkish chemical sector with the support of the Ministry of Trade and Turkish Exporters Assembly in Turkey as well as in the world. In the chemical industry with its 16 sub sectors such as plastics, cosmetics, medicals and pharmaceuticals, rubber and paint, İKMİB remarkably contributes to the Turkish economy and export and also adds value to the country by supplying raw materials for many sectors such as automotive, textile, and food.

The national participation fairs and sectoral trade and buyer missions organized by İKMİB plays a vital role for chemical exporters to reach new markets. İKMİB carries out many activities in order to increase the exports of companies which operates in health sector including pharmaceuticals, medical and dental products. İKMİB organizes the national participation fairs such as ARAB Health, Medica, IDS, AEEDC which are well-known in the health sector. It also carries out two different Cluster projects in pharmaceutical and health sectors. İKMİB also achieves sectoral trade missions to Far-East, South America and Africa and buying missions concurrent with important domestic fairs. By organizing pharmaceutical and medical committee meetings, it offers opportunities to assess the problems and solutions of the sector. İKMİB also organizes medical and pharmaceutical workshops by bringing the sector partners together.

www.abdiibrahim.com.tr

Company Profile: Abdi İbrahim, the Turkish pharmaceutical industry leader, was founded at a small pharmacy in 1912 in Küçükmustafapaşa, Istanbul, by pharmacist Abdi İbrahim Bey. Abdi İbrahim has the largest product portfolio in the sector, with nearly 250 brands and more than 450 products which it develops itself as well as working with 30 licensors.

With its powerful vision, dynamic structure and contemporary outlook, Abdi İbrahim has been the leader of Turkey's pharmaceutical industry since 2002. Today, Abdi İbrahim, which operates in 14 countries outside Turkey, exports to more than 60 countries ranging from Canada to European Union member states, from North Africa to Asia, and is the largest employer in the Turkish pharmaceutical industry with 4.750 qualified employees. The company also leads with its marketing and sales team, which is the largest in the industry

Abdi İbrahim, which has the first accredited R&D centre in the industry, is a role model with its technological equipment and architecture as well as its R&D processes for future healthcare.

As well as its R&D Centre, Abdi İbrahim has a manufacturing facility for chemical products, Turkey's largest biotechnological manufacturing facility AbdiBio, a hormone production facility, a sterile ophthalmology and sterile inhalation products production facility, and a sterile injectable and oncology products production facility which will be operational in 2023 in Istanbul's Esenyurt production complex. Abdi İbrahim has also R&D centres and production facilities in Kazakhstan and Algeria.

As a corporate citizen working towards creating a better world and a better future, adhering to its mission in the sector and to the requirements of societal priorities, Abdi İbrahim focuses on sustainability in all its business processes. Approaching all of its actions from the standpoint of environmental, social and governance (ESG) criteria, Abdi İbrahim has made it possible to gauge the company's performance not only on the basis of positive financial results, but also from the perspective of its positive impact on the community and the environment.

A force for healing in a changing world, Abdi İbrahim increases its effectiveness in international markets with each passing day. Its vision for 2025 - apart from maintaining its status as a wholly local company - is to become "one of the top 100 pharmaceutical companies in the world".

İstanbul / TÜRKİYE

<https://www.nobel.com.tr/>

Company Profile: A global player with more than half a century of experience, Nobel was founded in 1964 as a company with 100% Turkish capital. Today, Nobel operates with a total of five facilities, three in Turkey and one in each of Kazakhstan and Uzbekistan, while carrying out promotion and sales activities with its own organizations in 20 countries. Having a cadre of about 3,000 persons who are experts in their respective fields, Nobel exports qualified products to 50 countries, which it manufactures according to international standards. Nobel carries out its Turkish sales, marketing and management activities in Istanbul, its manufacturing and R&D activities in Düzce and Gebze, and API manufacturing in facilities located in Çerkezköy. Aiming to improve the quality of life with effective and high quality products manufactured according to international standards, Nobel carries out its promotion and sales activities with its own organizations in Germany, Albania, Azerbaijan, Belarus, Bosnia and Herzegovina, Bulgaria, Georgia, Switzerland, Montenegro, Kazakhstan, Kyrgyzstan, Kosovo, Macedonia, Mongolia, Moldova, Uzbekistan, Russia, Serbia, Turkmenistan and Ukraine. The first step in the global expansion of Nobel Pharmaceuticals, which is part of Ulkar Holding materialized in Kazakhstan, and Nobel AFF, which was founded in 2002, became the first manufacturing facility with foreign capital in the country. This facility, which is a source of pride for Nobel, is at the same time the first one in the country to hold a GMP certificate for good manufacturing standards. Another source of pride in the Asian geography is Nobel Pharmsanoat, our operations in Uzbekistan. With more than 300 employees, Nobel Pharmsanoat is a well-known Turkish brand associated with standard of quality in Uzbekistan, which is one of the most populous countries in Central Asia.
